

EMN MEETING on CERAMICS

Energy Materials Nanotechnology

January 26 – 29, 2015 Orlando FL USA

The EMN Meetings grew out of a small workshop series that began in 2008 at a traditional villa in Orlando, Florida. Over the next three years, six additional successful workshops were organized on various focus topics in materials science, and grouped under the title of “Villa Conference” in honor of the original 2008 Orlando meeting. The Villa Conference series has grown rapidly beyond the traditional villa setting, continuing to attract highly-quality contributions from members of the international scientific and engineering communities. In 2012 the first Conference with a broader theme of Energy, Materials and Nanotechnology was held. The EMN Meetings now include five annual gatherings: EMN Fall (Orlando), EMN Spring (Las Vegas), EMN Summer (Cancun), EMN East (Beijing), and EMN Open (Chengdu).

The 2015 EMN Ceramics Meeting is a new development in this series, in response to growing interests from additional participants on this conference theme. It’s going to be a unique platform for leading scientists, researchers, scholars and engineers from academia, R&D laboratories and industry around the world to exchange, share and learn the most recent advancement on various aspects related to ceramic science and technology.

General Chairs:

Zhiming WANG, University of Electronic Science and Technology of China, China
Anuja Datta, University of South Florida, USA

International Advisory Committee:

A. DOMINGUEZ-RODRIGUEZ, University of Seville, Spain
R. GADOW, University of Stuttgart, Germany
Hideo HOSONO, Tokyo Institute of Technology, Japan
P. SAJGALIK, Slovak Academy of Sciences, Slovakia
Masahiro YOSHIMURA, National Cheng Kung University, Taiwan

International Program Committee:

S.A. AKBAR, The Ohio State University, USA

International Organizing Committee:

Paolo COLOMBO, University of Padova, Italy
Francesco Dal CORSO, University of Trento, Italy
Malek MAAZA, iThemba LABS, South Africa
Xiaoqing PAN, University of Michigan, USA
Andrea PICCOLROAZ, University of Trento, Italy
V.K. SRIVASTAVA, Indian Institute of Technology, BHU, India
Yiquan WU, Alfred University, USA

Workshops

[EMN Workshop on Ceramic Nanostructures](#)

[EMN Electronics in Ceramics](#)

[EMN Ceramics for Energy](#)

[EMN Ceramic-matrix Composites](#)

[EMN Defects in Ceramics](#)

[EMN Hierarchical Materials: formulation, processing and properties](#)

[EMN Advanced Problems in the Mechanical Modelling of Ceramic Materials](#)

[EMN Advanced Ceramic Thin Films and Coatings for Functional Applications](#)

[EMN General Workshop on Ceramics](#)
