

Elizabeth Roye Schotter

Psychology Department
University of South Florida
4202 East Fowler Ave,
PCD 4118G, Tampa, FL 33620

phone: (917) 226-7096 (cell)
email: eschotter@usf.edu
website: faculty.cas.usf.edu/eschotter
lab website: amac-usf.com

Professional Positions

- 2022-present Associate Professor; Psychology Department, University of South Florida
- 2016-2022 Assistant Professor; Psychology Department, University of South Florida
- 2013-2016 Post-doctoral Scholar; Rayner Eye Tracking Lab, University of California, San Diego

Education

- 2007-2013 Ph.D., Psychology, University of California, San Diego
- 2007-2008 M.A., Psychology, University of California, San Diego
- 2003-2007 B.A.s, Psychology, Classics; *Summa Cum Laude*; *Phi Beta Kappa*; Washington University in St. Louis

Previous Research Positions

- 2007-2016 Lab Manager; Rayner Eye Tracking Lab, University of California, San Diego
- 2009 Visiting Researcher; Centre for Vision and Cognition, University of Southampton, UK

Research Fields

Cognitive Science, Reading, Language Processing, Attention, Visual Perception, Eye Movements, Electroencephalography, Decision Making, Bilingualism

Grants & Fellowships

- 2021-2026 PI on Postdoctoral Supplement to NSF Grant 2120507
Supported Postdoctoral Scholar: Frances Cooley
\$246,983
- 2021-2026 PI on NSF Grant 2120507/2120546 (co-PI: Karen Emmorey)
Collaborative Research: The role of perceptual and word identification spans in reading efficiency: Evidence from deaf and hearing adults
\$962,952 (local budget: \$500,282)
- 2022-2023 Faculty Mentor on Psi Chi Mamie Phipps Clark Diversity Research Grant
(Student Awardee: Casey Stringer)
The Leftward Perceptual Span of Deaf Readers
\$1,500
- 2022-2023 Faculty Mentor on Psi Chi Undergraduate Research Grant
(Student Awardee: Hannah Thomas)
Investigating the Impact of Lexical Characteristics on Word Recognition & Understanding: An Event Related Potential Study
\$1,500

- 2021-2022 PI on Psychonomics Leading Edge Workshop (co-PIs: Trafton Drew, Brennan Payne)
Neural underpinnings of attention in the real world: Co-registration of eye movements and EEG
\$50,000
- 2021-2022 PI on NSF Conference Grant 2032183 (co-PIs: Trafton Drew, Brennan Payne)
Neural underpinnings of attention in the real world: Co-registration of eye movements and EEG
\$25,000
- 2021-2022 PI on USF Conference Support Grant
Neural underpinnings of attention in the real world: Co-registration of eye movements and EEG
\$5,000
- 2021-2022 Faculty Mentor on Psi Chi Undergraduate Research Grant
(Student Awardee: Neslihan Caliskan)
The Impact of Lexical Relationships and Contextual Information on Visual Word Recognition: an Event-Related Potential Study
\$1,500
- 2021-2022 Faculty Mentor on Psi Chi Undergraduate Research Grant
(Student Awardee: Victoria Estevez)
Is Parafoveal Vision Sufficient for Semantic Integration?: Evidence from Event-Related Potentials
\$1,500
- 2021-2022 Faculty Mentor on Psi Chi Undergraduate Research Grant
(Student Awardee: Magdelin Lopez)
Identifying the Relationship Between Visual Field and Integration Processes Using Event-Related Potentials
\$1,500
- 2020-2023 PI on USF Humanities Institute Summer Grant
Investigating If Music Benefits Language Processing through Prediction
\$5,000
- 2020-2022 Faculty Mentor on Psi Chi Undergraduate Research Grant
(Student Awardee: Dimitri Brunelle)
Identifying Overlapping Neuro-Cognitive Mechanisms of Music and Language through Predictive Processing using Event-Related Brain Potentials
\$3,500
- 2020-2021 PI on USF Strategic Investment Pool Award (co-PIs: Marvin Andujar, Jennifer Bugos, Shaun Canavan, Peter Clayson, Chad Dubé, Geoffrey Potts)
Acquisition of eye tracking and EEG co-registration equipment
\$82,550
- 2020-2021 Faculty Mentor on Psi Chi Undergraduate Research Grant
(Student Awardee: Alex Sciuto)
How Do The Reliability of Perceptual Input and Spelling Ability Modulate Readers' Reliance on Predictions to Facilitate Word Identification?
\$1,500
- 2019 Scholarship via R25 MH080794 (PI: Steven Luck)
Yearly Workshop in the Event Related Potential Technique
(covered registration, travel, lodging, & meals)

- 2019-2020 Faculty Mentor on Psi Chi Undergraduate Research Grant
(Student Awardee: Anna Marie Fennell)
The Benefits of Musical Training on Working Memory
\$1,500
- 2018-2019 PI on USF Nexus Initiative Award (collaborator: Amy Lieberman)
Investigating Enhanced Peripheral Processing in Deaf Individuals: Purely Perceptual or Linguistically Driven?
\$9,000
- 2017-2019 PI on NSF Grant 1724550/1724623 (co-PI: Andrew Schotter)
Collaborative Research: Attention in Games and Decisions
\$392,484 (local budget: \$198,817)
- 2018 Instructor on USF Creating Research Experiences and Activities Through Teaching Enhancement Award
Experimental Design and Analysis
\$1,500
- 2017 Instructor on USF Creating Research Experiences and Activities Through Teaching Enhancement Award
Experimental Design and Analysis
\$2,000
- 2015-2016 co-Investigator on NIH Grant R01 HD065829 (PI: Roger Levy)
Linguistic Processes in Sentence Comprehension and Reading
\$174,040
- 2014-2016 Post-doctoral Scholar under Atkinson Family Endowment (PI: Keith Rayner)
\$104,535
- 2013-2014 Post-doctoral Fellowship under NSF Science of Learning Center VL2 cooperative agreement SBE 1041725 (local PI: Keith Rayner)
The Development of the Perceptual Span in Beginning Deaf Readers
- 2011-2013 Pre-doctoral Fellowship from the UCSD Center for Research in Language NIH Training Grant DC000041 (PI: Marta Kutas)
Language, Communication, and the Brain
- 2011-2012 Student Initiator on UCSD Chancellor's Interdisciplinary Collaboratories Grant (PIs: Keith Rayner, Roger Levy & Nuno Vasconcelos)
Language and Visual Saliency Jointly Guide Eye Movements in the Perception of Complex Scenes
\$120,000
- 2011 Graduate Student Supervisor on Psi Chi Undergraduate Research Grant
(Student Awardee: Randy Tran; Faculty Mentor: Keith Rayner)
How The Ability to Return to Previously Read Words Affects Normal Reading
\$3,500
- 2009 Graduate Student Supervisor on Chancellor's Research Scholarship
(Student Awardee: Raymond Berry; Faculty Mentor: Keith Rayner)
Parafoveal processing of acronyms in reading
\$3,000

2009 Visiting Scholar on Experimental Psychology Society Study Visit Grant
(host: Simon Liversedge)
Binocular coordination of eye movements during reading
£1,200

Honors & Awards

2017 Early Career Award; American Psychological Association Division 3 (Society for Experimental Psychology and Cognitive Science)

2014 Select-Speaker Award; Psychonomic Society

2011 Norman Anderson Travel Award; UCSD Psychology Department

2009 Travel Fund Award; UCSD Dean of Social Sciences

2007-present *Phi Beta Kappa*

2007 John A. Stern Outstanding Research Prize in Psychology; Washington U. in St. Louis

2007 Eugene Tavenner Prize in Classics; Washington University in St. Louis

Mentoring and Research Supervision

Postdoctoral Scholars:

Frances Cooley

Doctoral Dissertations (chair):

Mark Lowry (Psychology; co-Chair with Dr. Chad Dubé): Evaluating Theories of Bilingual Language Control Using Computational Models

Masters Theses (chair):

Sara Milligan (Psychology): Influences of Sentence Context and Individual Differences in Lexical Quality on Early Phonological Processing during Silent Reading

Jason Schmidt Avendaño (Psychology): Music and Linguistic Semantic Anomalies: An ERP Study on Integration & Expectancy on Predictive Processing of Harmonic Music During A Self-Paced Reading Task

Doctoral Dissertations (committee member):

Frances Cooley (Linguistics: *University of Texas at Austin*)

Saurabh Hinduja (Computer Science and Engineering)

Ke Tong (Psychology)

Mehrdad Vaziri (Geosciences)

Xiaoqian Yu (Psychology)

Masters Theses (committee member):

Joanna Lawler (Psychology)

Jacob Levine (Psychology)

Clara Lopes (Psychology: *University of Utah*)

Katherine Manrique (Communication Sciences and Disorders)

Samantha Shepard (Psychology)

Jacob Zepp (Psychology)

Undergraduate Honors Theses (chair):

Casey Stringer*: Stringer, C. (in progress). Investigating the size of the leftward perceptual span in deaf signers and hearing non-signers.

*Psi Chi Mamie Phipps Clark Diversity Research Grant, \$1,500

Hannah Thomas*: Thomas, H. (in progress). How semantic diversity affects downstream word recognition during reading: an event-related brain potentials study.

*Psi Chi Undergraduate Research Grant, \$1,500

Neslihan Caliskan*: Caliskan, N. (2021). The Impact of Lexical Relationships and Contextual Information on Visual Word Recognition: an Event-Related Potential Study. *USF Psych Expo, Tampa, FL* (2021: virtual conference)

*Psi Chi Undergraduate Research Grant, \$1,500

Victoria Estevez*: Estevez, V. (2021). Is Parafoveal Vision Sufficient for Semantic Integration?: Evidence from Event-Related Potentials. *USF Psych Expo, Tampa, FL* (2021: virtual)

*Psi Chi Undergraduate Research Grant, \$1,500

Dimitri Brunelle*: Brunelle, D. (2020). Identifying overlapping neuro-cognitive mechanisms of music and language through predictive processing using event-related brain potentials.

* Psi Chi Undergraduate Research Grant, \$3,500

Anna Marie Fennell* **: Fennell, A.M., Bugos, J. & Schotter, E.R. (2019). Musicians experience less working memory interference than non-musicians by utilizing syntactic structure. *USF Psych Expo, Tampa, FL* (2019) and *USF Undergraduate Research Conference, Tampa, FL* (2020: virtual)

* Psi Chi Undergraduate Research Grant, \$1,500

** USF Psych Expo Best Poster Award

Alex Sciuto*: Sciuto, A. & Schotter, E.R. (2019). To what extent does the quality of visual information modulate reliance on top-down versus bottom-up processing in reading? *Florida Psycholinguistics Meeting, Miami, FL* and *USF Psych Expo, Tampa, FL* (2019) and *USF Undergraduate Research Conference, Tampa, FL* (2020: virtual)

* Psi Chi Undergraduate Research Grant, \$1,500
